Within 1 week

Develonica has provided software development services around the world for 20 years to customers from startups and SMBs to Fortune 500 companies. Develonica focuses on custom software and mobile development, big data and analytics, IoT solutions, testing and quality assurance. We work with top companies around the world in industries from manufacturing, oil and gas to education, finance and media, as well as government agencies. Develonica is a Microsoft Gold Partner, IBM Premier Business Partner and Oracle Gold Partner.
A unique synergy of industry expertise, cutting-edge technology and development experience helps us stand out from the other companies. Having successfully completed more than 3,000 projects, we continue to help enterprises drive growth by enabling technology.
Our advantages:
Focusing on business needs and delivering high-quality service:
We solve clients' business issues rather than selling specific skills or solutions with solid and agile processes and project culture. Develonica focuses on quality and customer satisfaction throughout the entire project. Some partnerships with our clients started more than ten years ago and are still going strong.
Solving cost challenges :
With a proven methodology and robust processes, we deliver on time and budget.
Monetizing IT investments:
We are helping our clients to find the best fit between technology and business models and monetization approaches, creating business cases and ROI models that leverage state-of-the-art practices of building IT systems.
Ensuring reliability and robustness through strong engineering expertise:
Develonica developed a wide range of cutting-edge systems for the top global companies, including INRIX, Amadeus, Spirax Sarco, Telefonica, and many other world-class enterprises and organizations.
Empower your business with Develonica!
