Classic Informatics is a global Web development company delivering digital, web and mobile solutions at scale. They team up with SMEs & Enterprises to build and deliver user-centric products and solutions. They do it by infusing their technical expertise with design-thinking, enabling businesses to transform the way they work. Their approach is backed by agile-centric processes and exceptional engineering minds who excel at what they do. Since company's founding in 2002, they've expanded to four offices – Delhi, Sydney, London & Chandigarh – delivering an impressive portfolio of over 2000 mid & large-scale projects for customers in 30+ countries. The company applies its knowledge and expertise in digital transformation for a wide range of industries including healthcare, SaaS, retail & e-commerce, Logistics, FinTech, Travel, e-Governance & more.

The services spectrum include web development, mobile app development, software development, digital enablement, product engineering, UI/UX development, full-stack development, mobility solutions, eCommerce and CMS development, cloud solutions, and digital marketing and growth.
