Redwerk is a software development agency recognized by Microsoft Partner Network as a tech leader showing consistent capability and commitment. Our high expertise is also acknowledged by leading tech listings like Clutch, GoodFirms, DesignRush, SoftwareWorld, and ITFirms. Since 2005, we've helped over 170 businesses from 22 countries ideate & build successful SaaS products, migrate to the cloud, and reduce their technical debt.

We've worked with startups and big names from Media & Entertainment, E-Government, E-learning, Construction Materials, and GameDev.

Unlike many other vendors, we know how to work with non-techies so that their ideas and years of experience are mirrored in the software we develop. We care not only about our client's requirements but also the needs of end-users.

Among the 250+ projects we've delivered are successful e-learning apps like Gooroo, AI-driven multivariate testing solutions like Evolv, restaurant management SaaS like Quandoo, and an e-voting platform for the European Parliament.

Speaking of our client wins, we helped:

- Recruit Media create all-in-one HR platform from scratch and gain the recognition they deserve: Recruit Media was acquired by a successful staffing franchiser working across 35 states in the USA
- CIA develop an innovative e-government solution that was successfully integrated into operations by ten state and county human services agencies across the USA
- KB&G translate years of experience in the construction industry into #1 automated smart pricing solution in New Zealand
- Kooky implement digital cup smart system and become #1 green business in Switzerland

Gain more visibility into your project's scope and overall feasibility with our free consultation.

Contact us at info@redwerk.com, and we'll set you on the right track.
