PROFILE

iOS is the second most popular mobile operating system in the world. Today, the number of active Apple devices, including smartphones, tablets, and smart watches, has reached 1.3 billion. A total of 113 billion app and game downloads worth \$76 billion were recorded on the App Store and Google Play in 2018. Moreover, it was iOS applications that produced the largest amount of money. According to the Sensor Tower report, the App Store earned 93 percent more than Google Play in the third quarter of last year.

We analyzed the leading companies that develop mobile applications for iOS devices and presented a list of the most reputable and well-known companies.
